Holistic Therapy
Natural and Homemade

Everything I make comes from nature.
Most of the plants have been harvested in the St Baume landscape.

Veronique Flayol

Marie-Madeleine described as a "Carrier of perfumes" pushed me to discover essential oils and aromatherapy. In Palestine, she was part of the group of Women Myrrhophores. She transmitted to the Druids on her arrival in Provence all her knowledge on the virtues of plants.

I worked with essential oils for a very long time. We can completely limit ourselves to the biochemical aspect of the plant, but that is to deprive ourselves of the full potential of its energetic properties. Because plants not only heal our physical body but thanks to their vibratory side, they also have an action on our psycho-emotional and spiritual state, on our subtle bodies and their energy centers which are the chakras. To get to know them better, it was spiritual practices and meditation that allowed me to feel their soul the most.

Private consultations *

Your chakras are the adapters between your subtle body and your physical body that circulate life energy through your body. As soon as a blockage is created, the vital energy can no longer flow and this creates problems in the organs associated with this chakra. During this consultation, I identify which chakras to open or rebalance, realign those that need them, and give you the advice you need to maintain your day-to-day chakra balance with the use of essential oils. / meditation and thus help you free yourself from habits that prevent you from achieving your natural state of well-being. We will also be able to discuss how to deepen our relationship with Mary Magdalene.

After the 1st consultation you will have the possibility to set up follow-up sessions so that I can accompany you in your evolution, to face the challenges of life, restore the natural harmony of your body and mind

- **Duration : 1st consultation : 1 hour 30 – Price : 70€**
- **Follow up : 30-40 mn - Price : 40€**

*** *The advice given on oils and rituals does not in any way replace medical or paramedical treatment.***
